Why recommend poses as a policy to be adopted, if it had already been put into successful operation? In fact, Gen. Grant in his letter, recognizes the fact that under a Radical government the people have been deprived of that rightful prize for which they gave such blood and reasures. His view of the situation shows to him a country in disorder, with away in a Mayance and civil liberty destroyed. Seeing this state of hostility axisting, he recommends to his party to obtain that which they have not. Let us, he says substantially, instead of directing the measures of the Government to he popular will in the South, direct them to secure that poace for which the solities fought, and of which had legislation in Congress has deprived them. with power who confesses he has abused it, on the bare promise of his reform.

In the establishment of governments in the Sonthern States what have they total show? Tennessee, certainly, does not present an example of prosperity worthy of imitation. Georgia is another example. Georgia adopted the reconstruction Governor and a reconstruction Herman Governor and a reconstruction Legislature. Now General Meade is sent there with an army to disregard the State laws and assume power himself to regulate what this patent Government has not regulated. That is, Georgia, under the less auspiess they could try, is a failure, and the army has to go to settle what it cannot settle.

Radicalism tried by itself is, therefore, a failure. It is a confessed failure. It is the control of the pr sume our own country, and no diversion will be tolerated till long after the harpies have been driven, by revolution, from the bones they will still be knawing! Only with the election of Seymour and Blair, and the reinauguration of vifal and manly republicanism in our country, can it be even dimity expected that such vitality and health will be restored to our system as to render it possible to add to the wealth of the current of our life and national fame, by the annexation of the glistening treasures of Mexico or of the sugared riches of Cuba. supering the weak of having inade the first apeech that was published in the United States in favor of the suppression of the rebellion; that the late war was not waged for the purpose of subjugating the white people of the South and placing the idiotic, thick-lipped negro over them. The people of the South are humiliated beyond measure by the domineering spirit of the scalawags, carpet-baggers and negroes, who are foised upon the down-trodden people. The General alluded to the state of affairs in the Southern States; that in the Louisiana Legislature there were thirty-six negroes in the lower House, an equal proportion in the Senate, and that angust body was presided over by a negro as black night itself.

Gen. B. said that he had the honor, as wattempt by Congress, on any gretext which will be first appeared this right, or interfere with this exercise, Is at the right, or interfere with this exercise, Is at the condition of power, which can do now arrant in the Constitution, and sametloned by the people, will subvert our form of government, and can only end in a single, centralized, consolidation as single, centralized, consolidation of certal Union of equal States will be entirely absorbed, and an unqualified despondent of the Estates will be entirely absorbed, and an unqualified despondent of the victory against the resolution are solutionary and void. One single illustration will serve to show why. The party, the political party, that has anstalned the war is naturally prejudiced against the people, and suspects and distrusts thou, while in this country it is absolutely impossible to have peace unasses we do trust the people.

Why, then, should we, the people, trust to a party thus disqualitied from making peace, when the examples they furtish prove to us that they have already failed to make peace, and under the most advantageous circumstances. Why trust men to respect the laws that have violated them; why put the trial by jury, the habeas corpus, the powers of the Supreme Court, a free press and free speech, in the care of men who admit their constant violation of these rights, and only promise tool better hereafter, General Graut says to his party, "let us have peace," but were he a statesman, he would know that the rebulke he administers to then in the expression, for not having made peace before, applies to the platform on which he was nominated, and to himself. Dear Democrat: The third days of our country fairs are always the days of the fair. Se far it holds good with ours This has been the most successful day of the season. Hold to thy heart that only treasure fast."
I'ut poor old batch, some of the witching fairles of this fair have gotten my heart all lin a "pitty-pat," and learned me to believe with Beanmont, THE MURPERERS AT LARGE AND PROTECTED BY The Jacksonport Herald of the 26th "The bleakest rock upon the lonellest healt Feels, in its barrenness, some touch of spring And, in the April dew, or beam of May Its moss and tichen freshen and revive; outains the particulars of a terribly ragedy enacted at Walnut Grove, Caroll commy, which is in the northwestern part of the State, on the 5th of September. Dr. D. G. Hart, who furnishes he information save:

Its moss and thehen freshen andrevive:
And thus the heart, most sacred to human pleasure,
Melts at the tear, joys in the smile, of wonan."
I think the most of the "rougher" of
creation up this way are wiking victims
to her charms. There is much gallantry
at this fair, and we can be polite to the
tableaux on every side of—

the information, says:

It appears that the origin of the diffiently was politics; that Lamb, a Democrat, and Long, a Radical, had a fight,
in which Long came out second best,
lut not being satisfied with the result of
the fight, swore that he would have revenge. On sunday, the 8th instant,
Long and his brother armed themselves
and went to church at Walmut Grove,
with the Intention of renewing the difficulty with Lamb, Lamb, it appears,
snspected something of the kind, and
was, therefore, with his brother, armed
and present at church. The parties
nuceting, legan to quarrel, and at last
drew their pistols and cocked thom, and
stoad lines for about ten minutes talking
to each other, when the Long brothera
nnexpectedly and simultaneously fired
upon the Lambs, both shots taking effect, wounding one of them and killing
the other. The Longs then turned upon
the crowd and fired upon a Mr. Ferand,
killing him instantly. They then soughed
another man by the name of Womse,

The excitement that prevailed for a few days among the people was alarming—there being five or six hundred men under arms—and it was with the greatest difficulty that they could be restrained from visiting summary punishment upon the whole militia gang, and ment upon the whole militia gang, and record have done so had not some of the

The local diaracter of these Longs is add in the extreme. They are publicly accused of being jay hawkers, house burners, horse thieves and perfect despraces, and are a terror to the whole continuity in which they reside.

The killed and wounded were all good citizens and members of the Democratic party, and their slayers of the Radiesl party.

Thines have come to a pretty pass, in the content of the residual party and their slayers of the Radiesl party.

Things have come to a pretty pass, Indeed. The militia that are being organized with the anowed purpose of preserving the peace and enforcing a due observance of the laws by the people are becoming the instigators and fosterers of all manner of crime, and actually harbornes whose hands are yet dripping with the warm blood of their yeldins. How long, oil! how long can this state of things exist? The patience and forbearmee of this people is almost exhansted. We want the Radicals that there is a limit to all things, and they should be careful not to overstep the bounds of all mann forbearance. We call the attention of his Excellency to these facts.
